

Mommy on the farm poultry Home – Grown Chicken

Treat yourself and your family to a healthy alternative for your family's chicken consumption. Chickens raised on pasture are far healthier and cleaner than what is raised in confinement farming. Even organic chickens do not necessarily get the opportunity to scratch and peck on fresh grass during their lives. We believe chickens need to live the life of a chicken. We provide that opportunity by raising them on pasture supplemented with a natural diet of seeds and minerals, which provides more nutrition to the consumer.

To receive chickens, please fill out the order form and return to mommy on the farm poultry. In order to hold chickens, a \$5.00 per chicken deposit is required and will be credited to your account. We recommend this because of the limited number of chickens ordered for the processing date. Chickens will be whole roasting birds that range in weight from 3 to 5 lbs.

All orders must be picked up from the farm on the scheduled Day. Failure to pick chickens up will result in the loss of your deposit. Think about ordering in bulk or with a friend so you only have to make the trek once or twice a year. Our primary concern is to provide a chicken free from antibiotics that has been given the opportunity to live a happy healthy life.

Animals are raised and harvested on mommy on the farm poultry. Orders will be filled on a first come basis. Please be prompt in returning this order form to us with your choices. We will contact you to confirm your order and to discuss final payment at pickup. When signing below you are saying that you are going to be there on the day that the bird is ready to be picked up.
